BUREAU OF LAND MANAGEMENT Northwest Oregon District Office 1717 Fabry Road SE, Salem, Oregon 97306 http://www.blm.gov

Welcome to the Bureau of Land Management (BLM) Northwest Oregon District (NWOD)'s quarterly Planning Update, Summer 2022 edition. The purpose of this publication is to provide you with information on proposed and ongoing resource management activities on BLM administered lands within the NWOD.

I seek your comments and ideas on NWOD's land and resource management programs and projects listed in the attached Summer 2022 Planning Update. My intent is to increase the public's awareness regarding BLM activities and opportunities. Accordingly, I seek your comments and experience on our public outreach and engagement efforts in order to gather feedback on any missed project planning issues and recommendations for improvement. Your comments and suggestions are appreciated and very important to us. They help us make well-informed public land decisions, take sound land management actions, and improve our projects to maximize the benefits to BLM administered lands and serve the public as Congress intended.

The quarterly Planning Update includes projects that are undergoing National Environmental Policy Act (NEPA) review. NWOD posts all NEPA documents and final decisions on the BLM National NEPA Register (ePlanning). Please see the first section of this publication for more information about accessing and navigating the ePlanning website.

We welcome your comments for our consideration because robust public participation is essential to BLM's mission, and we at NWOD will always duly consider your comments and input in order to inform and improve our land and natural resource management decisions. Thank you for your continued interest!

Sincerely,

Dennis C Teitzel Acting District Manager Northwest Oregon

INTERIOR REGION 9 • COLUMBIA–PACIFIC NORTHWEST IDAHO, MONTANA, OREGON\*, WASHINGTON \* PARTIAL

# Bureau of Land Management Northwest Oregon District Summer 2022 Planning Update

The Bureau of Land Management (BLM) manages more than 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of subsurface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations.

#### **Projects Described in this Document**

Tables 1 through 6, below, describe the planning status of current projects. Projects are organized by Field Office or District, project type, project name/description, location, planning status, and contact person. Projects started and completed between editions of this document have gone through the full analysis process. The BLM notifies the public of these projects through this document; mailings and emails to contacts on the Northwest Oregon District Field Offices' National Environmental Policy Act (NEPA) notification lists; newspaper legal notices; and postings on the BLM National NEPA register website (ePlanning). Previous Planning Updates for the Northwest Oregon District are available at:

https://www.blm.gov/programs/planning-and-nepa/plans-in-development/oregon-washington.

The timber sale plan for FY 2022 was updated on June 6, 2022, and is available at <u>www.blm.gov/or/resources/forests/index.php</u>

#### BLM's National NEPA Registry Website (ePlanning)

To access ePlanning, go to: <u>https://eplanning.blm.gov/eplanning-ui/home</u>. Under "Find a Project" you can search by "State" (*Oregon/Washington*), Office (select *NW Oregon District Office* for Northwest Oregon District projects, select *Cascades FO* (Field Office) for Cascades projects, select *Marys Peak FO* for Marys Peak projects, select *Siuslaw FO* for Siuslaw projects, select *Tillamook FO* for Tillamook projects, and select *Upper Willamette FO* for Upper Willamette projects).

You can also search by "Type(s)" of document (*Categorical Exclusions*, *Determination of NEPA Adequacy*, *Environmental Assessment*, *Environmental Impact Statement*), resource "Program(s)", and fiscal "Year(s)" (October to September) the project was inputted into ePlanning. You do not need to fill out all of these options to search. Check the box next to "Show only open participation periods" to see projects with open comment periods. Unselect the box next to "Show only active projects" if you want to see all projects within a given Office, Type, Program, and/or Year. Then click the *Search* button and your results will be shown below. You can also search by entering the NEPA number or project name (under the "Name/Description of Project" column in Tables 1-6 below).

Many projects in Tables 1 through 6 of this Document are hyperlinked to ePlanning. If you have an electronic copy of the Quarterly Planning Update, you may click on the project name in Tables 1 through 6 to access the ePlanning project page.

\*\*\* Continuing our service to the public while doing our part to address COVID-19 is very important. The health and safety of staff and visitors at BLM's facilities is our number one priority. Following guidance from the Centers for Disease Control and Prevention and recommendations from State and local public health authorities, the BLM is temporarily restricting in-person public access at some offices in Oregon.

Please check with individual offices for customer service availability by phone before arriving at an office.

## Acronyms and Definitions

*Categorical Exclusion (CX):* A category of actions (identified in agency guidance) that do not have a significant effect on the quality of the human environment and for which neither an environmental assessment nor an environmental impact statement is required.

**Decision Record (DR):** The BLM decision document associated with an EA that describes the action to be taken when the analysis supports a finding of no significant impact.

**Determination of NEPA Adequacy (DNA):** An interim step in the BLM's internal analysis process that concludes that a proposed action is adequately analyzed in an existing NEPA document (an EIS or EA). Where applicable, the determination also addresses conformance with an approved land use plan.

**District Designated Reserve (DDR):** One of the federal land use allocations set forth in the 2016 Northwestern and Coastal Oregon Resource Management Plan (RMP). The objective of this land use allocation is to maintain the values and resources for which the BLM has reserved these areas from sustained-yield harvest. These lands include constructed facilities and infrastructure, such as seed orchards, roads, communication sites, quarries, buildings, and maintenance yards, as well as Areas of Critical Environmental Concern (ACEC), Timber Production Capabilities Classification (TPCC) lands, and Lands Managed for their Wilderness Characteristics (LWC). **Environmental Assessment (EA):** A public document prepared pursuant to the National Environmental Policy Act (NEPA) that provides sufficient evidence and analysis to determine whether a federal undertaking would significantly affect the quality of the human environment. If the answer is no, the agency issues a finding of no significant impact (FONSI), otherwise, the agency would be required to prepare an Environmental Impact Statement (EIS) to pursue the project.

*Environmental Impact Statement (EIS):* A document required by NEPA to assess the potential impacts of federal agency actions "significantly affecting the quality of the human environment." *ESA:* Endangered Species Act of 1973.

*Finding of No Significant Impact (FONSI):* A finding that explains how an action will not have a significant effect on the quality of the human environment pursuant to NEPA, and, therefore, an environmental impact statement would not be required.

*FY*: Fiscal Year. Beginning October 1 of one year and ending September 30 of the following year.

*Harvest Land Base (HLB):* One of the federal land use allocations set forth in the Northwestern and Coastal Oregon RMP. Those lands on which the determination and declaration of the Annual Productive Capacity/Allowable Sale Quantity (ASQ) is based. The ASQ is based on

implementing a set of specific timber management activities and assumes those practices will be repeated over time and results in a sustainable harvest level. This includes the Moderate Intensity Timber Area (MITA) and Low Intensity Timber Area (LITA).

*Land Use Allocation (LUA):* A designation defining uses that are allowed, restricted, or prohibited for a particular area of land. The LUAs are Congressionally Reserved Lands and National Conservation Lands, District-Designated Reserve, Harvest Land Base, Late-Successional Reserve, and Riparian Reserve.

*Late-Successional Reserve (LSR):* One of the federal land use allocations set forth in the Northwestern and Coastal Oregon RMP land use allocations. The Northwestern and Coastal Oregon RMP designated lands to a land use allocation of the same name, but the objectives of the LSR are to manage habitat for the northern spotted owl and marbled murrelet.

*Low Intensity Timber Area (LITA):* A sub-allocation of the Harvest Land Base land use allocation. See *Harvest Land Base*.

*MBF*: Thousand board feet of timber.

*MMBF*: Million board feet of timber.

*Moderate Intensity Timber Area (MITA):* A sub-allocation of the Harvest Land Base land use allocation. See *Harvest Land Base*.

*National Environmental Policy Act (NEPA):* A federal law that requires agencies to determine if their proposed actions would have significant environmental effects on the quality of the human environment. The NEPA procedures ensure that environmental information is available to the public, and that the public has an opportunity to participate in the process before federal agency decisions are made and before actions are taken that may have a significant effect on the environment. The NEPA process provides an understanding of the environmental consequences of a proposed action and action alternatives to assist federal agency officials in decision-making. *Regeneration harvest:* Any removal of trees intended to assist regeneration already present or to make regeneration possible.

*Riparian Reserve (RR):* One of the federal land use allocations set forth in the 2016 Northwestern and Coastal Oregon RMP. Lands within the Riparian Reserve were designated to manage for ESA-listed fish species and their habitats and water quality.

*Salvage harvest(ing):* Removal of dead trees or of trees damaged or dying because of injurious agents other than competition, to recover their economic value.

SBA: Small Business Administration.

*Sustained Yield Unit (SYU):* An administrative unit for which an allowable sale quantity is calculated. In western Oregon, the six sustained yield units correspond to the Coos Bay; Eugene; Medford, Roseburg, and Salem Districts, and the western portion of the Klamath Falls Field Office. The consolidation of the Salem and Eugene Districts did not affect sustained yield units. *Thinning - Commercial Thinning/Density Management:* Commercial thinning is stand thinning in which some, or all, the cut trees are removed from the stand for timber. Density Management is the cutting of trees for the primary purpose of widening their spacing so that growth of remaining trees can be accelerated. Density management harvest can also be used to improve forest health, to open the forest canopy, or to accelerate the attainment of old growth

characteristics if maintenance or restoration of biological diversity is the objective. Specific objectives would vary by land use allocation.

USFWS: U.S. Fish and Wildlife Service.

97402. The Danebo parcel was acquired to		
serve as an administrative facility for the		
BLM. The larger WEW planning area		
comprises approximately 1,340 acres of BLM-		
administered land within and near the city of		
Eugene, Oregon.		

Tillamook Field	l Office Propo	sed Projects	
Name/Description of Project	Location	Planning Status	Contact
0	ion Management Actio		
North Yamhill River Timber Management Project (DOI-BLM-ORWA-N040-2018-0006- EA): The Field Office analyzed the effects of conducting commercial harvest on approximately 1,800 acres of land allocated to the Harvest Land Base and Riparian Reserve within the Upper North Yamhill subwatershed. A FONSI was signed in August 2019.	Upper North Yamhill River 6th field subwatershed	In Progress. A Decision Record for the final timber sale under the North Yamhill River Timber Management Project is expected in the spring of 2023 with the timber to be offered for sale in summer 2023.	Andy Pampush <u>apampush@blm.gov</u> (503) 815-1143
Coast Creek Timber Management Project (DOI-BLM-ORWA-N040-2020-0001-EA): The Tillamook Field Office has completed environmental analyses for the Coast Creek Timber Management Project which includes regeneration harvest and commercial thinning in the Harvest Land Base - Moderate Intensity Timber Area, thinning within the Riparian Reserve land use allocation, and road construction and maintenance including the replacement of several fish passage culverts. The timber management project includes approximately 1,015 acres and would result in multiple timber sales. A FONSI was signed in October 2020.	Coast Creek subwatershed of the Willamina Creek 5th field watershed, Yamhill County	EA complete with FONSI signed in October 2020. The first timber sale decision is expected in summer of 2022 with expected sale in October 2022.	Andy Pampush apampush@blm.gov (503) 815-1143
Upper Willamina Forest Management Project (DOI-BLM-ORWA-N040-2021-0001-EA): The Tillamook Field Office is planning a timber management project on approximately 2,700 acres of HLB, LSR, and RR lands in the Upper Willamina Creek, Coast Creek, and Deer Creek subwatersheds of the South Yamhill River watershed. Treatments being considered range from restoration thinning on LSR and RR lands to commercial thinning and regeneration harvest on HLB lands. Associated actions include but are not limited to road construction and renovation, culvert installation and replacement, snag creation, riparian tree felling, etc.	Upper Willamina Creek and Coast Creek subwatersheds of the Willamina Creek watershed, and Deer Creek subwatershed, Yamhill County	In Progress. Analysis and internal document review is ongoing. The EA is expected to be available for public review in summer of 2022.	Andy Pampush apampush@blm.gov (503) 815-1143
	neous Land Use Requ	ests	
<b>Process Requests (EA/CX/DNA):</b> For various land uses such as rights-of-way, tailholds, and special use permits.	Tillamook Field Office-wide	Ongoing.	Andy Pampush apampush@blm.gov (503) 815-1143

Upper Willame	tte Field Off	ice Proposed	Projects
Name/Description of Project	Location	Planning Status	Contact
	egetation Managem	ent Actions	
Blue Lite Special Timber Sale: An approximately 550-acre timber sale, designed to implement a portion of the actions analyzed in the <u>King Mosby EA</u> (DOI-BLM- ORWA-N050-2019-0002-EA).	T. 21 S., R. 2 W., Sec. 29, 32, 33	In Progress. Public review period closed on July 6, 2022.	Andrea Slusser aslusser@blm.gov (541) 683-6967
Marcola Sunrise EA (DOI-BLM-ORWA- N050-0007-EA): The Upper Willamette Field Office (FO) prepared a Programmatic Environmental Assessment analyzing both regeneration harvest and commercial thinning within the Marcola Sunrise project area.	T.16S., R.1E., sections 7, 21, 29, 31; T.16S., R.1W., sections 11, 13, 15, 17, 21, 23, 25, 27, 29, 33, 35; T.16S., R.2W., section 25; T.17S., R.2W., section 13; T.17S., R.1W., sections 1, 3, 5, 9, 11, 15, 17, 19	EA complete. FONSI and Decision Record signed June 25, 2021.	Matt Buss mjbuss@blm.gov (541) 683-6453
Hard Yakka Timber Sale DNA (DOI- BLM-ORWA-N050-2022-0006-DNA): A 433-acre timber sale, designed to implement a portion of the actions analyzed in Alternative 3 of the Marcola Sunrise EA (DOI-BLM-ORWA-N050-2020-0007-EA)	T. 17 S., R. 1 W., Sec. 3, 9, 11, 15	Appeal period closed on May 31, 2022.	Andrea Slusser <u>aslusser@blm.gov</u> (541) 683-6967
<b>Ghost Town Timber Sale DNA</b> ( <i>DOI-BLM-ORWA-N050-2022-0008-DNA</i> ) A 260-acre timber sale, designed to implement a portion of the actions analyzed in Alternative 3 of the Marcola Sunrise EA (DOI-BLM-ORWA-N050-0007-EA)	T. 16 S. R. 1 W. Sec. 7, 11, 15, 23	In progress Appeal period ends July 11, 2022.	David Butler dbutler@blm.gov (541) 683-6417
<b>Big League Timber Management Project</b> <b>EA</b> ( <i>DOI-BLM-ORWA-N050-2022-0003-</i> <i>EA</i> ): The Upper Willamette Field Office proposes to implement forest management actions under a programmatic environmental assessment. Forest management actions are expected to include regeneration harvest, commercial thinning, snag creation, road work, slash reduction, and reforestation. Approximately 4,600 acres are expected to be analyzed for timber harvest.	T.14S., R.2W.; T.14S., R.1W.; T.14S., R.1E.; T.15S., R.2W.; T.15S., R.1W.; and T.15S., R.1E.	In Progress. Analysis is ongoing. The EA to be available for public review summer 2022.	Andrea Slusser <u>aslusser@blm.gov</u> (541) 683-6967 David Butler <u>dbutler@blm.gov</u> (541) 683-6417
<b>Upper Willamette Aquatic Restoration</b> <b>DNA 2022</b> ( <i>DOI-BLM-ORWA-N050-2022-</i> <i>0005-DNA</i> ): The proposed action would implement habitat improvements on BLM- administered lands in Lane County, Oregon. Project actions include: placing large woody debris (LWD) into the Gate Creek channel on BLM and private industry lands (LWD	T.16S., R.2E., sections 13, 14, 23, 26; T.20S., R.1W., sections 1, 2, 11; T.22S., R.2W., sections 15, 22; T.21S.,	Complete Appeal period ended May 31, 2022	David Butler <u>dbutler@blm.gov</u> (541) 683-6417

Oak Basin Prairie Area of Critical Environmental Concern Management Plan (DOI-BLM-ORWA-N050-2022-0009-EA) The purpose of the project is to create an ACEC management plan and EA to guide BLM actions in the Oak Basin Prairie ACEC. A management plan is needed to identify management actions that will maintain, restore, or enhance the Relevant and Important Values of the ACEC and to manage forest stands to achieve continual timber production that can be sustained through a balance of growth and harvest in portions of ACEC that overlap with Harvest Land Base (HLB). Peter Reforestation CX (DOI-BLM-ORWA- N050-2021-0015-CX): The Northwest Oregon District Bureau of Land Management's (BLM) Upper Willamette Field Office (FO) is proposing reforestation	Sections 28, 29, 33 and 34 ost-Fire Restoration of The Holiday Farm Fire BLM	Public scoping period ends July 15, 2022 and Salvage Complete. Appeal period ended March 17,	dbutler@blm.gov (541) 683-6417 Andrea Slusser aslusser@blm.gov
would be constructed. Oak Basin Prairie Area of Critical Environmental Concern Management Plan (DOI-BLM-ORWA-N050-2022-0009-EA) The purpose of the project is to create an ACEC management plan and EA to guide BLM actions in the Oak Basin Prairie ACEC. A management plan is needed to identify management actions that will maintain, restore, or enhance the Relevant and Important Values of the ACEC and to manage forest stands to achieve continual timber production that can be sustained through a balance of growth and harvest in portions of ACEC that overlap with Harvest Land Base (HLB). Perel Reforestation CX (DOI-BLM-ORWA- N050-2021-0015-CX): The Northwest Oregon District Bureau of Land Management's (BLM) Upper Willamette Field Office (FO) is proposing reforestation treatments to accomplish land use allocation	Sections 28, 29, 33 and 34 ost-Fire Restoration of The Holiday Farm Fire BLM	Public scoping period ends July 15, 2022 and Salvage Complete. Appeal period ended March 17,	dbutler@blm.gov (541) 683-6417 Andrea Slusser aslusser@blm.gov
would be constructed. (2016 ROD/RMP). Over a 10-year period, approximately 15,758 acres would be treated using seedling planting, seeding, paper mulching, tubing, spot scalping, and/or manual maintenance.					
Miscellaneous Land Use Requests					
<b>Process Requests (EA/CX/DNA):</b> For various land uses such as rights-of-way, tailholds, and special use permits.	Upper Willamette Field Office-wide	Ongoing.	David Butler <u>dbutler@blm.gov</u> (541) 683-6417		

## Table 6:

	ie Proposed P		1			
Name/Description of Project	Location	Planning Status	Contact			
Vegetation Management Actions						
Northwest Oregon District Sample Tree Falling (DOI-BLM-ORWA-N0000-2022-0004-CX) The BLM proposed to fall, buck, and scale sample trees ("sample tree felling") to ensure timber cruise accuracy for future forest management actions.	BLM lands across all five Field Offices of the Northwest Oregon District	Complete. Appeal period ended on June 24, 2022 with no appeals filed	Emily Erwin <u>eerwin@blm.gov</u>			
2022 Northwest Oregon District Annual Treatment Plan for Invasive Plant Management/ Integrated Invasive Plant Management Treatments DNA In accordance with direction in the 2019 Decision Record and Integrated Invasive Plant Management for the Northwest Oregon District Environmental Assessment (EA), the Northwest Oregon District BLM proposed the 2022 Annual Treatment Plans (ATPs) for invasive plant management (one ATP for general treatments and one ATP to address post-fire treatments). The treatment methods identified in the two ATPs includes manual, mechanical, targeted grazing, competitive revegetation treatment methods, the application of one or more herbicides, or a combination of treatment methods. In order to accommodate the necessary increase in herbicides treatments needed to sufficiently manage the post- fire increase of invasive plants on District, the BLM sought, and obtained a variance from USFWS on its Biological Opinion for the 2022 ATP DNAs.	BLM lands across all five Field Offices of the Northwest Oregon District	Complete. Public Comment ended in March 2022. Appeal period ended in April 2022 with no appeals filed.	Emily Erwin eerwin@blm.gov			
Northwest Oregon District Invasive Plant Management and Habitat Restoration EA (DOI-BLM-ORWA-N000-2022-0003-EA): The IDT will update and revise the 2019 EA, omitting the limiting herbicide-usage percentages. The proposed action is essentially like Alternative 3 of the 2019 EA, with more flexibility built in. A 30- day public scoping period began on May 16, 2022 – ending June 15, 2022. Tribal consultation was initiated on May16, 2022. ESA section 7 consultation is being reinitiated with USFWS and NMFS.	BLM lands across all five Field Offices of the Northwest Oregon District	Planned.	Paula Feldmeier <u>pfeldmeier@blm.go</u> ⊻			
<b>Restoration Actions</b>						
There are no planned District restoration actions.		•				
Miscellaneous Land Use Requests						
There are no planned District Land Use Requests.
