

Request for Motorized/Mechanized Use in the Sheep Creek SE Allotment in Bruneau Jarbidge Wilderness Area

On December 29, 2022 the BLM Bruneau Field Office received a request to maintain/repair all reservoirs and dirt tanks in the JP Point and Sheep Creek SE Allotments, in which some are located within the Bruneau Jarbidge Wilderness. The applicant requested the use of a bulldozer and backhoe to repair the reservoirs (which is included in the wilderness inventory). This request is a one-trip ingress/egress that would be via pre-existing two-track roads (closed after wilderness designation).
