

## ATTACHMENT 1

### National Scenic and Historic Trails Manual Series Team Member Functions

These teams will primarily serve as discussion groups to resolve issues and identify gaps and will not serve as authors.

Core Team Members: provide foundational program expertise throughout project. Cultural resources, recreation and visitor services and visual resources will be represented on the Core Team.

Satellite Team Members: provide subject matter expertise on an ad hoc basis. Satellite Teams may include resource program specialists, standing team liaisons (Recreation and Visitor Services Advisory Team, Engineering Advisory Team, Travel and Transportation Management Team and the Preservation Board), trail administering agencies, National Conference of SHPO's and the Advisory Council on Historic Preservation.

Management Advisors: provide guidance to the team and facilitate collaboration and integration between these developing policies and management of the larger BLM. Management Advisors are line officers at the Field, District and State Office or Center level. The NLCS Management Advisory Team will serve in an advisory capacity.
