

OIG High Risk Boundary Nomination Questionnaire

(See General Guidance for complete listing of required materials)

- 1) Provide project name, description of the property, general location, and the Bureau of Land Management (BLM) field office affected. Provide Federal agency or Indian Tribe affected, if applicable.
- 2) Provide a general description of the issue:
Include any of the following:
 - a) Description of encroachment/unauthorized use
 - b) Serialized case number
 - c) Pending litigation
 - d) Presence of hazardous materials
 - e) Description of how stakeholders are affected
- 3) Description of revenues lost or at risk:
 - a) Describe possible loss of significant resources (submit supporting documents including appropriate maps and photos). If none are presumed lost, proceed to letter g.
 - b) What is the approximate value of resources lost due to antiquated surveys and uncertain boundary location?
 - c) What is the estimate of revenue to be recovered?
 - d) Is it likely that revenue will be recovered if identified?
 - e) What actions would be required to facilitate the recovery of lost revenues identified?
 - f) What is the estimated cost to recover revenues after cadastral services have been provided?
 - g) Are there any resources at risk of loss due to antiquated surveys and uncertain boundary location? If yes, provide an estimated value of these resources.
 - h) Provide historical background including an estimate of when unauthorized use may have begun.
 - i) Are there any issues relating to unauthorized utilities that could result in the recovery of lost rents?
- 4) Description of adjoining lands as they apply to issue.

- 5) Describe any sources of contributing funds:
Provide dollar amounts by the following:
 - a) Field or district office name
 - b) BLM program name and subactivity
 - c) Agency office if applicable
- 6) Describe any services, and associated cost, that are needed from *other* BLM programs or disciplines to properly identify revenues lost or at risk (i.e., Realty, Right-of-Way, Geographical Information Systems (GIS) Specialist, Solicitor, and Law Enforcement).
Provide target units of accomplishment if applicable.
- 7) Provide narrative of recommended plan of action for identification of lost revenues or revenues at risk.
 - a) Include recommended first steps
 - b) Provide estimated target units for cadastral services
- 8) Provide cost of recommended cadastral service(s).
- 9) Describe any additional factors that apply including vegetation, wildlife, timber activities, and mining/drilling/leasing activities.
- 10) Describe any funding already invested by the Department of the Interior. For example, if Land and Water Conservation Fund lands are part of this proposal, at what costs were these lands acquired?
- 11) Describe any community impacts and/or impacts to sensitive species.
- 12) Describe other positive, tangible outcomes possible from completing the recommended services.
- 13) If funded and revenue can be recovered, what is the projected date of recovery?
