

**Request for Motorized/Mechanized Use in the Nahas FFR Allotment, Pole Creek Wilderness Area**

On September 11, 2023, the BLM Bruneau Field Office received a request to maintain a reservoir in the Nahas FFR Allotment, within the Pole Creek Wilderness. The applicant requested the use of a backhoe and dump truck to dig out and remove all sediment / build up that has piled around the stock pond throughout the years as well as repair the earthen berm. This request is a one-trip ingress/egress that would be via a pre-existing two-track road (closed after wilderness designation).
