Landscaping with Native Plants in Southern Utah

Marc Coles-Ritchie, BLM Ecologist Tim Clarke, Landscape Designer

Kanab Public Library, April 2025

Recognizing Indigenous People and knowledge of nature

- Tribes with connection to this land include Paiute, Hopi, Zuni, Pueblo, Dine' (Navajo), Ute and others.
- Indigenous people lived off this land!

NOT covered in this presentation

- Lawns
- Vegetable gardens
- Fruit trees
- 'Zero-scaping' (gravel, concrete) ... but YES to 'Xeriscaping'
- Drip irrigation
- Surface water drainage
- Heavy equipment

What is a native plant landscape?

- Not only one approach a gradient of options:
 'Ecological' using locally-native species ... to ... 'Naturalistic' with introduced species suited to local conditions
- Utilize the benefits of native plants:
 - Locally-adapted
 - Waterwise
 - Biodiverse (plants and wildlife)
 - Low maintenance
 - Sustainability
 - Low carbon footprint

'Ecological' - natural, wild, native species diversity

Natural Area (not altered)

Natural Recovery after construction 2023 to 2024

'Naturalistic' - a stylized vision of nature

Key principles

- Minimize soil disturbance
 - Disturbed soil promotes dormant and windblown seed growth
- Promote native plant diversity
 - Keep existing & volunteer native plants
 - Remove weeds
 - Add appropriate plants
- Learn botany
- Establish structural diversity: tall, short, etc.
- Work with nature, not against it
- Be patient ... it takes time ... landscapes evolve season by season

What plants to use

Get to know plant requirements and characteristics:

- Soils (sand, loam, clay)
- Climate (USDA Zone, rainfall)
- Microclimate variation
- Water requirements (xeric / riparian)
- Exposure (sun / part-sun/ part-shade/ shade)
- Growth form (tree, shrub, perennial, cactus, grass)
- 'Architectural' form (groundcover, fountain, globe, columnar, etc)
- Height x spread (mature size)
- Color (flower, leaves, seedheads)
- Seasonal variations (winter especially)

Name: Apache Plume X

Fallugia paradoxa

Apache Plume

The plant blooms with single white flowers that set fluffy pink seed heads. Pink, silky plumed seed heads cover the tips of the branches for many months.

USDA Zone: 4 Height: 4'

Spread: 4'

Growth Rate: Moderate

Exposure: Full Sun to Part Shade (3 to 6+ hours Sun)

Water Use Once Established: Low

Flower Color: Pink shades Foliage Color: Green

What plants to use: artistic vision (intentionality)

- Purpose: define your parameters (hands-on or visual, children, pets)
- Plants as geometry (specimen, groups, masses) for layering and creating focal points, direction, enclosure, etc.
- Relationships of form and seasonal color: "painting with plants"
- Framing the vegetation:
 - Buildings (style, windows, entrances, materials and color)
 - Views (to keep or to screen?)
 - Trails (dirt, gravel, stone, etc.)
- Surroundings (mountains, cliffs, valley, water, etc.) ... Japanese
 "borrowed landscape"

Plant communities

Buckwheat (*Eriogonum*)
& Mormon Tea (*Ephedra*)

Artemisia

Salvia

Penstemon

Agave

Yucca

Blue Fescue

Achillea

Plant 'palette': preliminary list and order

SHRUBS

Artemisia 'Powis Castle'
Caryopteris x clandonensis
'Dark Knight', 'Grand Bleu'
Chamaebatieria millefolium
Chilopsis linearis
Chitalpa tashkentensis
Fallugia paradoxa
Foresteria neomexicana
Hesperaloe parviflora
Lonicera 'Major Wheeler'
Perovskia atriplicifolia vars.
Potentilla fruticosa 'Goldfinger'

Rhus trilobata 'Low-Gro'

Santolina chamaecyparissus

Salvia greggii

Powis Castle Artemisia Blue Mist Spiraea

Fernbush

Desert Willow
Chitalpa
Apache Plume
New Mexico Privet
Red Yucca
Major Wheeler Honeysuckle
Russian Sage
Shrubby Cinquefoil

Low-Gro Threeleaf Sumac

Autumn Sage

Lavender Cotton

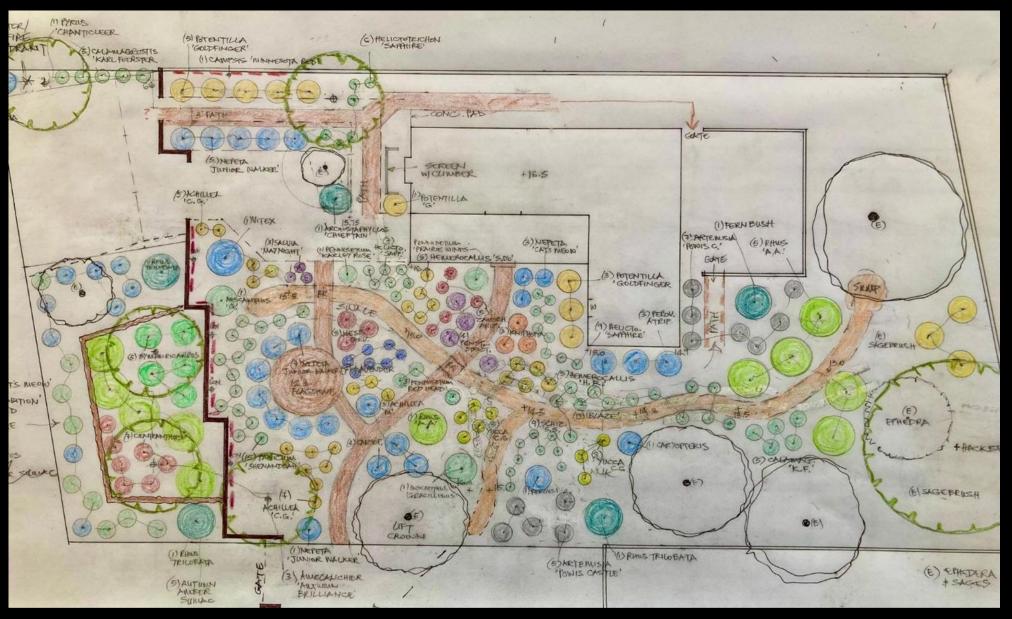

PERENNIALS

Achillea 'Moonshine'
Centranthus ruber
Coreopsis 'Moonbeam', 'Zagreb'
Helianthus maximiliani
Hemerocallis 'Stella d'Oro'
Kniphofia vars
Lavandula angustifolia vars.
Nepeta faassenii vars.
Salvia sylvestris 'Caradonna',
'May Night'

Moonshine Yarrow
Red Valerian
Threadleaf Coreopsis
Maximilian Sunflower
Stella d'Oro Daylily
Red Hot Poker
English Lavender
Catmint
Meadow Sage

Planting plan

Trees (not Kanab)

Shrubs

Cactus

Wildflowers

Grasses (not our yard)

Grasses (Kanab yard)

How increase native plants

- Gather seeds from nearby native plants
 - With gloves or scissors and bag
 - Scatter in yard
 - Cover some seeds with sticks
- Pull up native plants to transplant
 - Where allowed! Such as your yard, friend's yard, roadside that will be mowed
 - Best when ground is wet

EXISTING:
Juniper
Mountain Mahogany
Rabbitbrush
Sand Sagebrush
Globemallow
Beebalm
Evening Primrose
Datura
Sand Dropseed

ADDED:
Viburnum
Fernbush
Apache Plume
Butterfly Bush
Oregano
'Blaze' Little Bluestem

Minimize soil disturbance

- Don't clear vegetation
 - Bare soil invites annual weeds (tumbleweed, storksbill, cheatgrass, etc.)
 - Leave standing plant stems; they trap seeds that blow in wind
- Don't rake
- Create paths so you don't trample everywhere
- Allow biological soil crust to thrive
 - It quickly forms and reduces weed seed establishment

Weed Control

- Remove seeds: flowers and seedheads
- Let succession happen, from annuals to perennials
- Manual removal works well for small area, like yards
 - Prefer not to use chemicals
- Annuals
 - Cut when young, and leave on ground if no seeds
 - After seeds are produced, cut and bag flowers
 - No need to dig up annuals because they die anyway; better not to create more soil disturbance
- Perennials
 - Dig up, or cut repeatedly (slow the growth and flower/seed development); last resort is chemicals

Wildlife

- You are supporting habitat for many animals
 - Birds quail, sparrows, meadowlark, etc.
 - Mammals deer, mice, rabbits, ground squirrels, etc.
 - Insects pollinators
 - Gophers don't try to exterminate them
- Enjoy the wildlife ... and accept their impacts
- Animals will use (eat, damage, etc.) some of your plants; and that is natural and OK

Have Fun & Learn

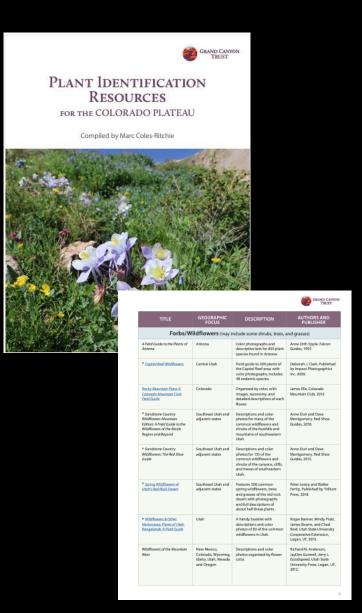

- Observe
- Spend time in yard
- See how plants change
- Don't expect static landscape
- Excitement of new arrivals
- Share info & plants with friends & neighbors

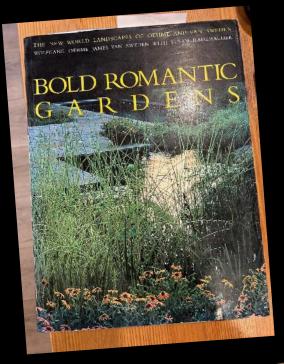

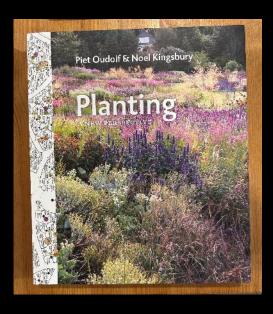

Plant Identification Tools

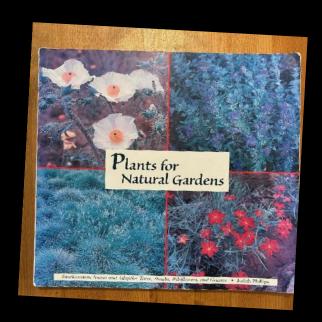

- iNaturalist post and others will identify
- List of books, apps and websites:
 https://www.grandcanyontrust.org/plan
 t-identification-resources
- Send me photos

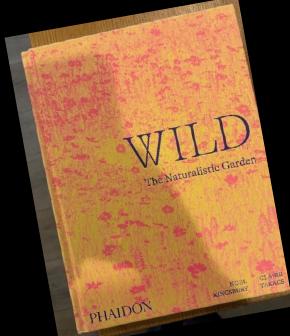

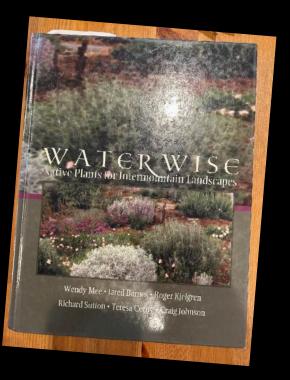

Book resources (listed on next slide)

- 'Wild The Naturalistic Garden' Noel Kingsbury & Claire Takacs
- 'Planting A New Perspective' Piet Oudolf & Noel Kingsbury
- 'Bold Romantic Gardens' Wolfgang Oehme & James van Sweden
- 'Plants for Natural Gardens Southwestern Native & Adaptive Trees, Shrubs, Wildflowers & Grasses' Judith Phillips
- 'Waterwise Native Plants for Intermountain Landscapes' Wendy Mee et al
- 'The Xeriscape Flower Gardener' A Waterwise Guide for the Rocky Mountain Region' Jim Knopf
- 'Native Plants for Southwestern Landscapes' Judy Mielke
- 'Canyon Country Wildflowers A Field Guide to Common Wildflowers, Shrubs, and Trees'
 Damian Fagan
- 'Weeds of the West' Tom Whitson (editor)
- 'Noxious Weed Field Guide for Utah' Joel Merritt et al
- 'Monument Plant List'

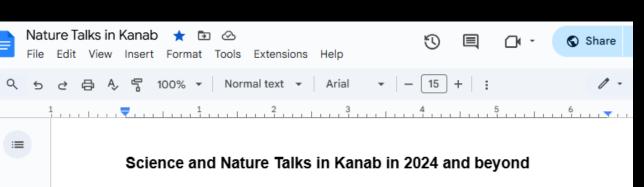

Online resources

- Progressive Plants (<u>www.progressiveplants.com</u>) Click on 'Catalog' for excellent plant information and availability.
- High Country Gardens (<u>www.highcountrygardens.com</u>) Waterwise plants for the Southwest, including sustainable lawns.
- Monrovia (<u>www.monrovia.com</u>) Great for plant information and ideas.
- Western Native Seed (<u>www.westernnativeseed.com</u>) Native grass and wildflower seed mixes for Southwest habitats, and individual seeds.
- Dripworks (<u>www.dripworks.com</u>) Mail order drip irrigation supplies.

Past Presentations at Kanab Library

- Wildflowers
- Grasses
- Lichens
- Shrubs
- Cactus
- Riparian plants

Here pdf's are available

The Grand Staircase-Escalante National Monument <u>science program</u> hosts a lecture series at the Kanab Library (374 N Main Street) that is open to all. Times are 6pm unless noted otherwise. If you have ideas for topics or speakers contact Marc Coles-Ritchie (mcolesritchie@blm.gov).

Upcoming Talks (2025)

- · February 12: Riparian and wetland plants (by Marc Coles-Ritchie)
- February 26: Bighorn sheep in GSENM and other Treasured Areas of Southern Utah (Joel Berger)
- March 12: Walking with Tyrants: Grand Staircase-Escalante's Tyrannosaur Renaissance (by Dr. Alan Titus)
- April 9: Landscaping with Native Plants (by Marc Coles-Ritchie & Tim Clarke)
- April 16: Bumblebees & Citizen Science (Amy Dolan)
- May: many nature talks at
 - o Amazing Earthfest May 8-11, 2025 in Kanab
 - Grand Staircase-Escalante region symposium March 20-22, 2025 in Escalante; agenda will be here
- Fall: ?

Past Presentations (link to pdf here and below)

- January 15, 2025: <u>Cactus</u> (by Marc Coles-Ritchie & Jared Higgs)
- December 11, 2024: <u>Lichens</u> (by Steve Leavitt)
- November 13, 2024: <u>Cultural site stewardship</u> (Lexi Little & Caitlyn McCallister)
- October 9: <u>Shrubs</u> (by Marc Coles-Ritchie)
- · August,: Grasses (by Marc Coles-Ritchie)
- April 2024: <u>Wildflowers</u> (by Marc Coles-Ritchie)
 - Related presentations <u>here</u> and <u>here</u>.
- . March 2024: Wildlife (by Joel Berger)
 - Related presentation <u>here</u>

Upcoming Events

Talks at Kanab Library on Science (6pm)

- April 16: Bumblebees & Citizen Science (Amy Dolan)
- --- Summer Break ---
- Sept. 10: Cup and Channel Petroglyphs (Michael Terlep)
- Oct. 8: Bats (Jackie Grant)
- Nov. 12: Native Buckwheat Plants (Web Staley & Marc Coles-Ritchie)
- Dec. 9, 2025: Mountain lions (Joshua Lisbon)
- 2026 topics: trees, river restoration, prairie dogs, ethnobotany, nature photography...

Other ecology events

Amazing Earthfest May 8-11 in Kanab

Photos

- Marc's online Flickr albums have many native plants:
