1.	17-18	19	CJM	Within the first paragraph of 2.2.5 Support Facilities There should be a statement about none of these areas will be constructed within areas not previously surveyed by their archaeological contractor and that they will be avoiding sites in the placement of these locations. This would be done to comply with BLM standards, rules and regulations. If this is not possible, these areas would need to be surveyed for cultural resources as well.	
2.	Figure 9b initial mine operations	n/a	CJM	In comparing this figure to the cultural report, surveyed area, It is unclear if all this (specifically the areas outside the green dotted line) are within the cultural survey boundaries. They should be. It prevents temporary storage etc from being placed on top of sites.
