Re: Proposed Mining and Reclamation Plan,
Capital Association Placer Mining Claim
(AMC 367119), Yavapai County, AZ

Dear Mr. Hawes:

With this letter, we hereby submit for your review and approval a proposed mining and reclamation plan for development of the Capital Association Placer Mining Claim which encompasses the southwest quarter, section 28, township 13 north, range 4 west, G&SRM, Yavapai County, Arizona. This plan is filed in accordance with 43 Code of Federal Regulations (CFR), subpart 3809.401. Both written and electronic copies are enclosed, including electronic copies of geographic information system data and maps used to compile the plan.

Per your request for base line information, we also submit with this plan written and electronic copies of cultural resources and biological resources reports completed by Environmental Planning Group, LLC, Phoenix, Arizona. Surveys were completed recently for the entire 160 acres encompassed by the Capital mining claim, even though this proposed plan proposes development of less than half of that acreage.

All the proposed operations in this plan are reasonably incident to mining and processing. We propose to construct fences around a fuel tank, maintain a security gate to secure the mine site, and use signs to help ensure employee and public safety. The information required by 43 CFR, subpart 3715.3-2, for reasonably incident use and occupancy, is included in this proposed plan. Thus, we respectfully request your consideration and concurrence under 43 CFR, subpart 3715.3-4, at the same time as you consider our proposed mining and reclamation plan.

If you have any questions or need additional information, you may call me at 619-846-4671 (office) or 480-209-1103 (cell) or contact our project manager, Al Burch, at 602-418-7665.

Thank you for your help and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Areta Zouvas', with a long horizontal flourish extending to the right.

Areta Zouvas, President
