Shelby,
On behalf of Areta Zouvas with Kirkland Mining Company (KMC), please find attached the following:

1. KMC Revised Draft MRPO Transmittal Letter
2. Kirkland High Quality Pozzolan Mine, Draft Mining and Reclamation Plan of Operations, Revised June 1, 2017 (PDF Version in Redline/Strikethrough format)
3. Kirkland High Quality Pozzolan Mine, Draft Mining and Reclamation Plan of Operations, Revised June 1, 2017 (Full PDF Version, no tracked changes)
4. KMC Responses to BLM Comments (Comment Matrix)

Please let me know if you require anything further.

Thank you and regards,
Amanda

I have no comments on item #4.

I did see one item in the MRPO item #2. On page 27, Section 2.3.5 the revised last paragraph will start with "At this rate....". But now with the revisions the context for the reader has been lost with what rate you are talking about....

In the clean version (item #3) I am still unclear what is now being referred to. We do need to have the context of what the existing traffic on the paved road is and what will be added to it (which is what I think the paragraph originally said). Am I missing something?

Brian

One other note, can you provide us representative pictures of the types of equipment listed in Table 5 of the MRPO? I would like to include those in the PowerPoint we will put together for the open house.

Brian,
I spoke with Areta and KMC does have representative photographs that we can provide in a slide show for the Open House.

Thanks,
Amanda

Hi Brian,

Attached is a material and equipment flow chart that KMC uses internally to illustrate the types of equipment that will be used to produce the Kirkland deposit.

If you choose to use this illustration, please always include the following caveat in the photo frame or diagram:

This diagram is for illustration purposes only. It shows an example of the types of equipment to be used to produce high quality pozzolan from the Kirkland deposit, but specific pieces of equipment shown here, specific models, equipment capacities, and specific manufacturers are subject to change.

Hope this helps, Brian.

Have a good weekend.

Al
