Thank you very much to everyone who commented on the Kirkland Mining Company Mining Plan of Operation, there was a lot of great, high quality feedback!

Just FYI, I have attached the compiled comments and the draft of the actionable items that I would like to see in the KMC MPO in addition to filling out the comment matrix responses. Please feel free to reword, remove or add as you feel fit for your resource area.

Thank you!

Shelby: Great work. Make sure that Brian's and Paul's comments are consistent regarding a future off-site processing facility and whether we need to consider it a connected action--I don't think it is, but we may have to consider cumulative effects. My assumption is the facility location is not presently known and its construction is not in the near future.

If you need the Plan Not Complete decision signed and sent today, Jim will sign it for me. Thanks.
