Subject Re: Invitation to Sept. 21 Presentation of Transportation Report

Hi Jill,

After talking with Richard Spotts, we both realized that you probably would like a list of the addresses of the Cooperating Agencies we invited to the meeting on the 21st. So I am attaching it with this email.

It is a lengthy list so I have bolded the agencies most likely to be interested in this information, in case you want to send them copies of the report. This includes the counties, Arizona Game and Fish Dept., US Fish and Wildlife Service, St. George and Kanab Field Offices (they have just begun a transportation plan for their areas), Grand Staircase-Escalante NM, and the North Kaibab Ranger District of the US Forest Service. We share boundaries with the Kaibab Forest and with the St. George and Kanab Field Offices and Grand Staircase-Escalante NM.

COOPERATING AGENCIES TABLE agreement# bolded.doc

Thanks a lot

Subject Invitation to Sept. 21 Presentation of Transportation Report

Hi Diana,

I talked with Richard Spotts this morning and agreed that cooperating agencies should be invited to our presentation. However, I hope to still have a relatively small group that will facilitate a good discussion of our findings. Our intention is not merely to present our results. Instead, we hoped to have a discussion with the leadership team about this particular use of technology and our findings, and how they may be applied to the planning process (and I realize that the draft is essentially complete at this time). Below is an invitation that you can cut and paste to invite the

cooperating agencies and BLM staff.

I expect to receive printed copies of the report today (or tomorrow at the latest), and will FedEx copies to the ASFO as soon as possible. If you provide me with a list of the cooperating agencies that you expect to attend, I will mail copies directly to them as well.

Thanks Diana!

- Jill

---

You are invited to attend a presentation on a report prepared by The Wilderness Society providing an ecological analysis of the road density on the Arizona Strip and its effects on the habitat of five wildlife species -- desert tortoise, bighorn sheep, mule deer, pronghorn and mountain lion. Representatives of The Wilderness Society, including the primary scientist on the report, are scheduled to make the presentation on:

Date: Tuesday, September 21, 2004.

Time: 10am-12 noon

Location: conference room of the Arizona Strip Field Office, 345 E. Riverside Drive, St. George, Utah

This research was conducted so as to demonstrate the usefulness of spatial analysis to the resource management planning process for the Arizona Strip. Therefore, BLM staff and representatives from cooperating agencies are invited to attend. The report will be completed by the week of September 6 and paper copies will be made available to the BLM and other confirmed attendees at that time. Please contact me if you have any questions or would like further information.

Sincerely,  
Jill Ozarski
