PAGE 5. REPORT CHANGES IN REPOSITORIES AND CHANGES IN COLLECTIONS DATA

Use this form to list any additions or withdrawals repositories from the main repository list. Also use this form to report any changes to collections information. Supporting documentation for new repositories and withdrawal of confirmed repositories must be submitted to WO-240, as the list of repositories is audited. Additions and deletions from existing collection information will be used to tally item counts for required reporting purposes.

BLM State Office

NEW REPOSITORIES AND/OR ADDITIONS TO EXISTING COLLECTIONS

New repositories may be those that newly acquired BLM museum collections as well as those that prior to the reporting year had not been confirmed as holding BLM museum collections. Additions to existing collections include materials newly deposited in repositories, including materials transferred from BLM offices to repositories, as well as new information (such as item counts) about existing or legacy collections, etc.

Examples

<i>Agua Caliente Cultural Museum</i>		<i>Good (411 DM Checklist, BLM 2008)</i>		<i>Archaeology</i>			<i>Catalog record on file</i>

WITHDRAWN REPOSITORIES AND/OR DELETIONS FROM EXISTING COLLECTIONS

Withdrawn repositories may be those that the BLM removed all collections by transferring to them to another facility, or repositories that do not in fact have BLM collections as previously reported. Deletions from existing collections include instances where a portion of the collections were transferred from one repository to another or repatriated under NAGPRA, as well as clarifying over-estimated item counts.
